## How the magic unfolds...

If your chosen wedding date is available, let's begin!

Every wedding is different and my approach to your wedding is completely bespoke, so it's important that I get to understand your style, tastes, personality and vision. We'll arrange a meeting, preferably at your chosen venue. It is also important we establish your expectations. Initially, we look to price everything that you would like and take it from there.

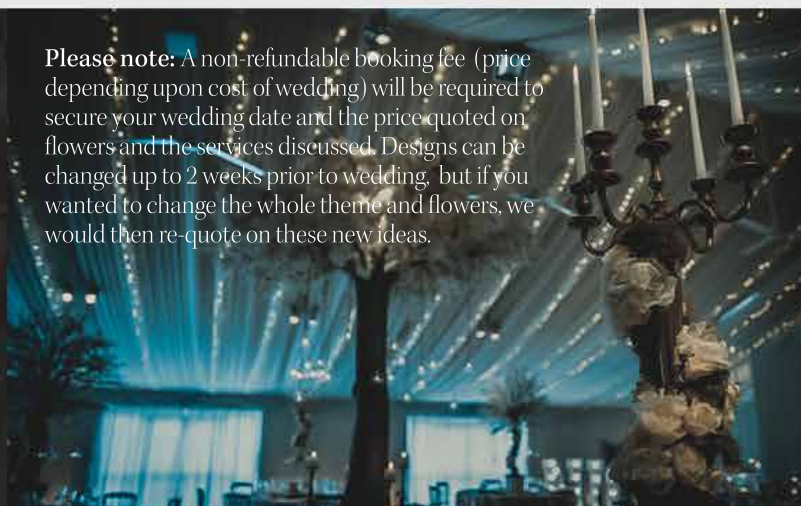

**The meeting:** With ideas from our portfolio, we will look at blooms which are in season for the month in which you are getting married. We will also look at colour palettes. Whether your wedding is small and intimate or a grand affair will determine how far we can go with ideas, but I will always offer advice on how to maximise your budget. I will take away the notes from our consultation and provide you with a full breakdown of costings and services for your day, clarifying what's fully included within the quote, e.g. delivery, candles, hire of props etc.

**Prior to the wedding:** We will have a follow-up consultation and at that point go through the designs with attention to every last detail. You will provide delivery details and the order of day and we'll liaise with the venue, so everything goes exactly to plan.

**On the day:** Early in the morning, we will deliver the bridal party flowers. We then move on to the church or the venue flowers. We of course discuss your plans first, so we can tailor delivery to your precise requirements. Rest assured, we have a temperature controlled vehicle if required, which we can use to transport the flowers to ensure optimum freshness on warm summer days.

**Please note:** A non-refundable booking fee (price depending upon cost of wedding) will be required to secure your wedding date and the price quoted on flowers and the services discussed. Designs can be changed up to 2 weeks prior to wedding, but if you wanted to change the whole theme and flowers, we would then re-quote on these new ideas.

# What we do...

As well as wedding flowers and bridal bouquets, I can also design complementary boutonniers for your groom and best men and blooms for your bridesmaids and maids of honour. Depending on your chosen theme and palette, I can also style your venue with table centrepieces, bespoke seating plans, candles of all shapes, sizes and scents, linen chair covers and table fabrics.

Whether your theme is dramatic or subtle, rustic or opulent, shabby chic or elaborate, I will work with you to create a magical experience, which you and your guests will not forget.

## What our clients say...

“Our wedding was absolutely stunning thanks to Kelly Louise ... It was very hard to choose our designs, but Kelly knew exactly what we wanted. Seeing it all being put together the day before the wedding was amazing, but nothing could prepare us for walking into the room on our wedding day. To say we were blown away is an understatement! I had goosebumps! What Kelly does is far more than wedding flowers and linen ... her vision and talent comes together to create what can only be described as a work of art. Every one of our guests could not believe how amazing everything was.” - Amber-Jayne Ward
